# ABOUT COMAR

Since 1968, we are one of the most specialized **Capacitors** manufacturer and **Power Factor Correction** solutions provider.

**TECHNICAL  
SKILLS**

on the total competences

**+500**

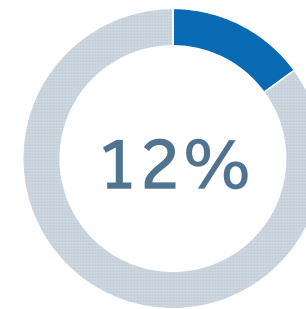

**Mvar**

yearly installed worldwide

**+200**

**CUSTOMIZED  
PROJECTS**

designed every year

**R&D**

of invested revenues

## VISION & MISSION

---

We believe in a future where companies and individuals use their energy at their best, avoiding useless waste.

A greener, cleaner and more sustainable world that we will leave to our children.

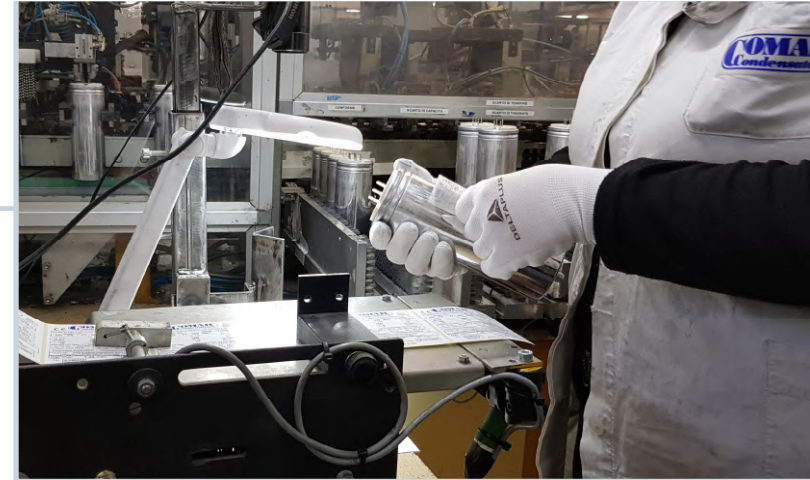

Our part, in this ambitious but necessary challenge, is **to design and build the best PFC capacitors and equipment** in the world, which increase the efficiency of power supply, while reducing the energy consumption and delivering cost savings on electricity.

# QUALITY ONLY

Our metallized polypropylene film capacitors are approved by **IMQ, VDE, CL-UL-US** and **KEMA**, while Power Factor Correction equipment for LV and MV applications received approvals from **CESI, SVEPPI** and **DEKRA**.

All our products are **100% made in Italy** and the whole production is under control thanks to our quality management system certified with **ISO 9001, 14001** and **OHSAS 18001** and it is **ROHS** compliant.

# ASSOCIATIONS

We are part of strategic Italian associations and federations for industrial and market development.

Italian Federation of  
Electrotechnical and  
Electronic Companies  
(ANIE)

Italian Electrotechnical  
Committee  
(CEI)

CONFINDUSTRIA

General Confederation  
of Italian Industry

(CONFINDUSTRIA EMILIA)

# PRODUCTS & SOLUTIONS

*we provide*

**COMAR**  
Condensatori

## MEDIUM VOLTAGE PFC EQUIPMENT

---

Automatic PFC · Banks & Reactors · Single and Three-phase Capacitors

# LOW VOLTAGE PFC EQUIPMENT

---

Fixed & Automatic PFC · APFC with Static Insertion · APFC with Blocking Reactors

# LOW VOLTAGE PFC COMPONENTS

---

PFC Racks · Three-phase Capacitors · Reactors · PFC Regulators

# ENERGY MONITORING SOLUTION

---

IoT device, with online platform and Cloud storage, for real time monitoring of APFC

# FILTERS FOR HARMONICS REDUCTION

---

Active Filters · Automatic Tuned Passive Filters · MV Tuned Passive Filters

# CAPACITORS

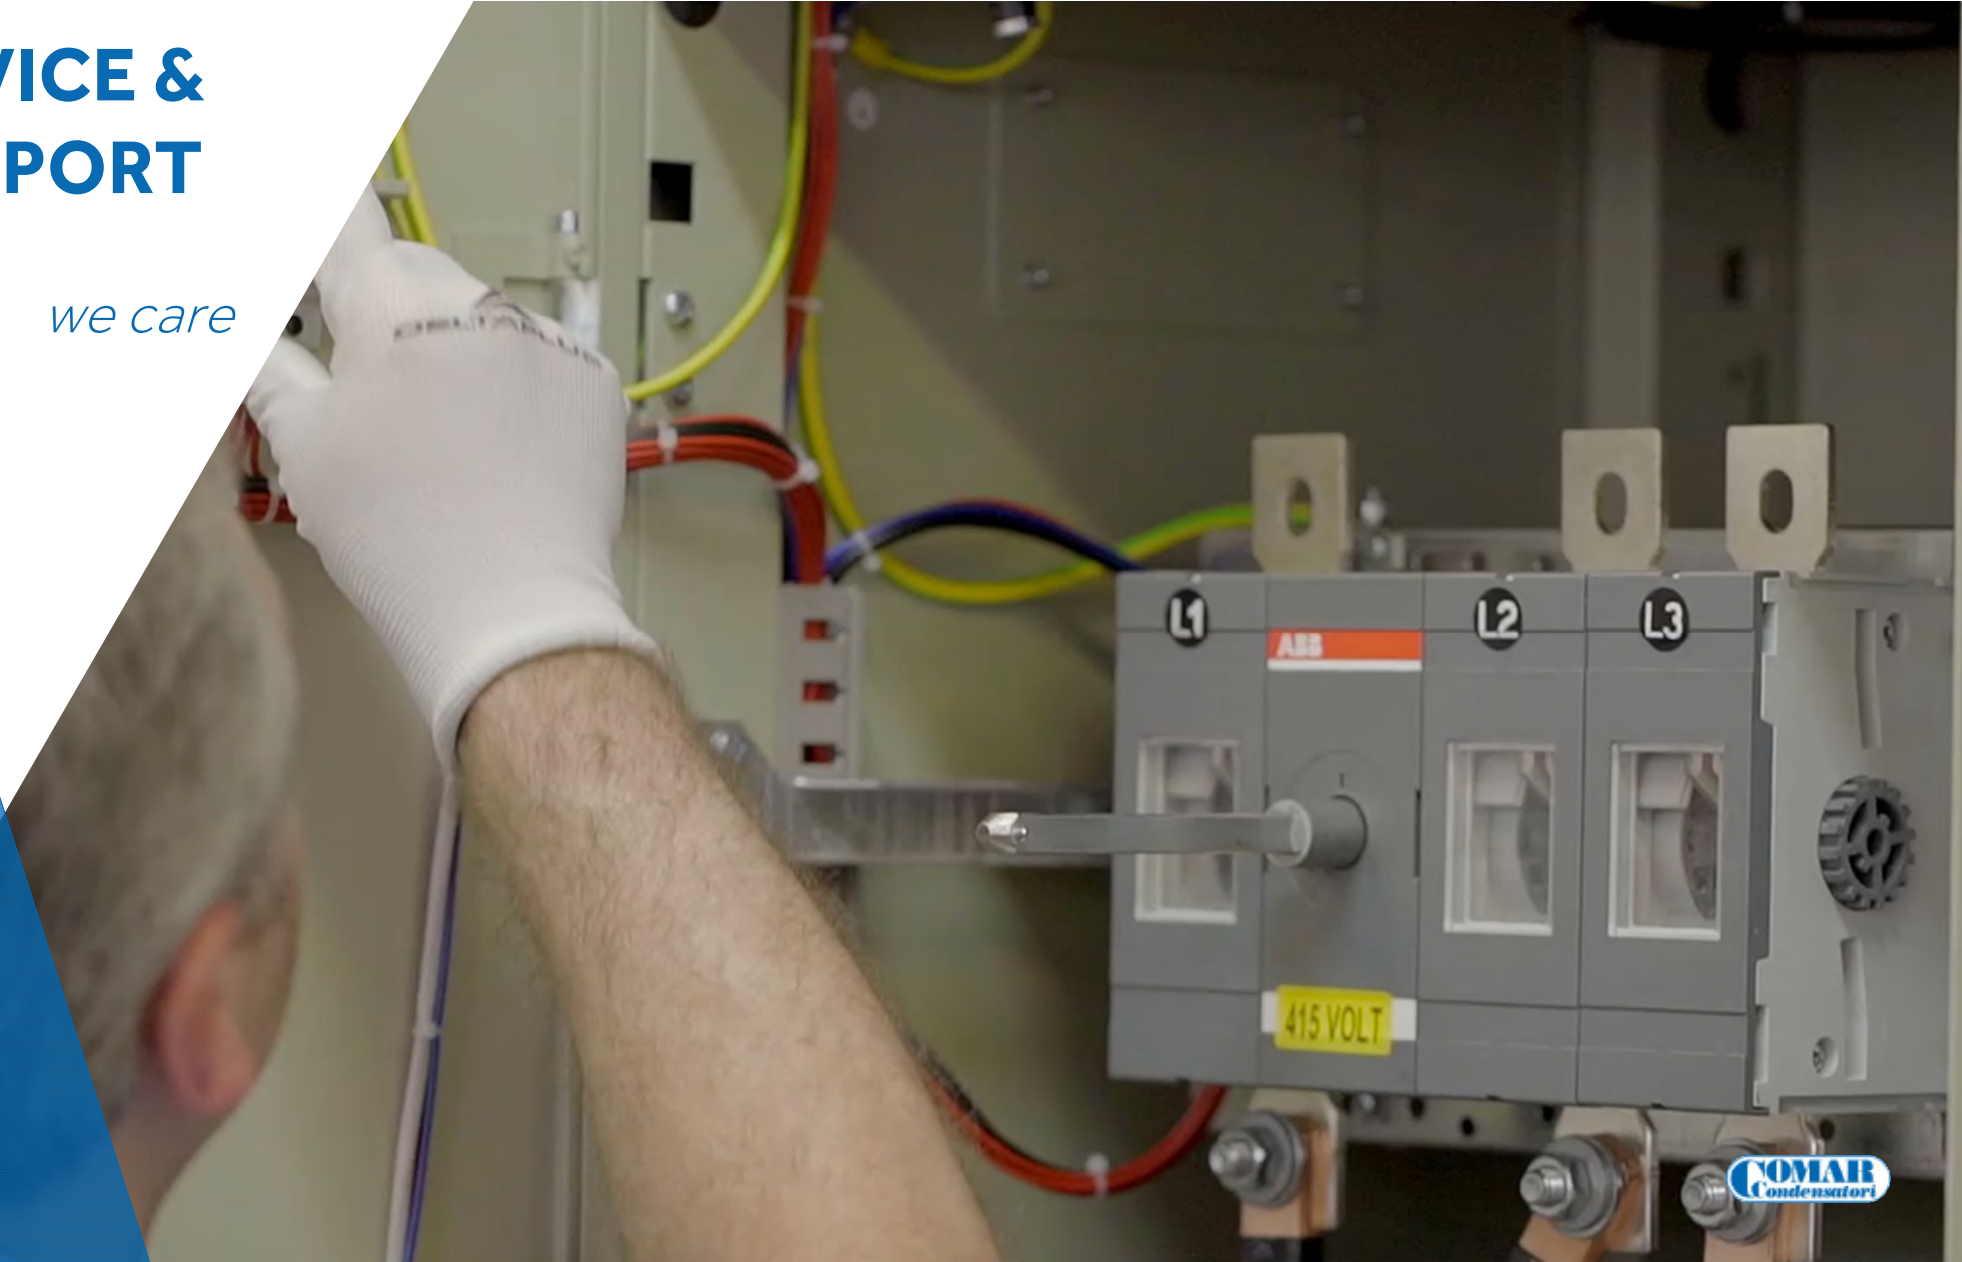

---

Power Electronics · Power Factor Correction · Lighting & Motor Running

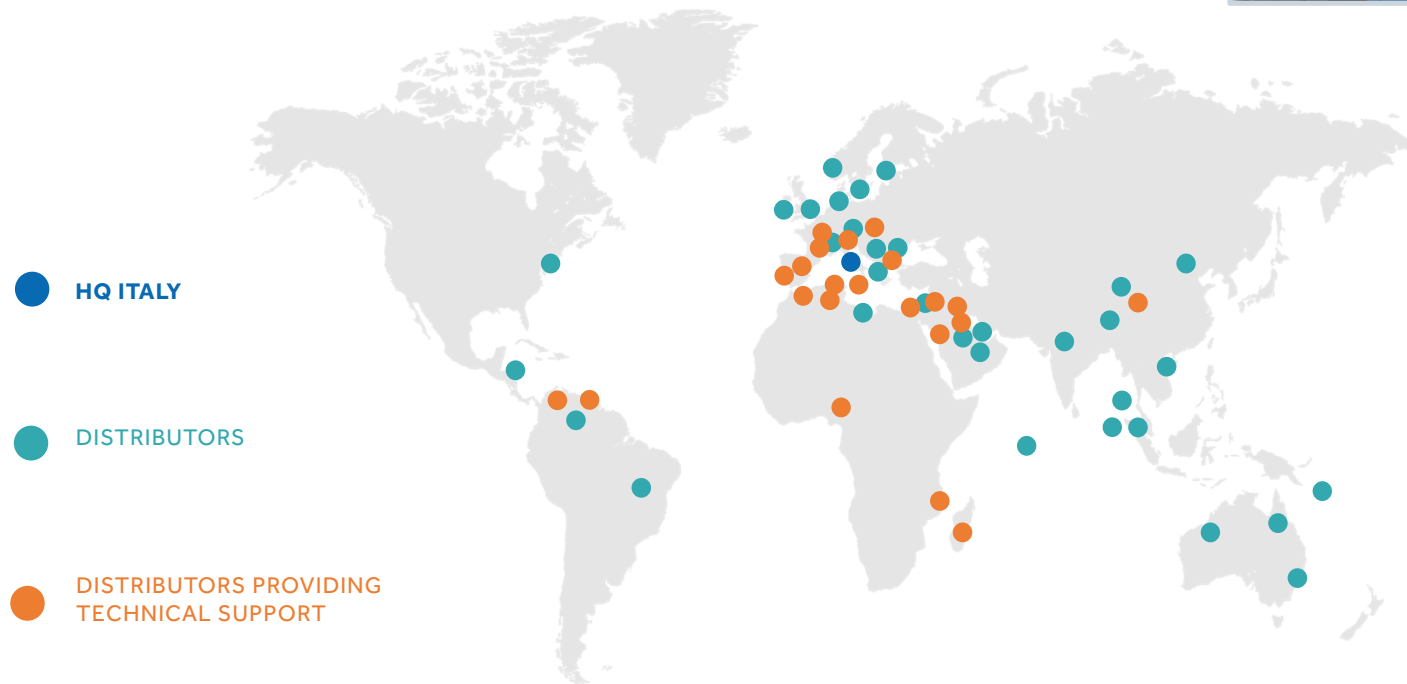

# SERVICE & SUPPORT

*we care*

# OUR GLOBAL PRESENCE

We take care of our Customer in every situation, thanks to our sales & service representatives operating in over **90 countries**, among **5 different continents**.

# AFTER SALES

---

We offer a comprehensive set of service, such as:

- Fine tuning of the equipment to reach efficiency optimization also through **remote monitoring of APFC**
- On-site **network measurement** to help Customers and Engineering Contractors analyzing complex data related to energy quality
- **Tailor made projects** to satisfy top quality specifications, using the best technologies and skills acquired in over 50 years of experience
